Resene Colour Me Pink

TAKE YOUR PICK
Don't stop at swapping your wardrobe for warmer climes. Put a spring in your step with new decor displays - we're picturing vibrantly painted vases to match a basket bag at the front door.

PRETTY IN PINK
Along a 500-metre pink runway in the middle of Provence's lavender fields, Jacquemus' anniversary show was the talk of the season - its bold fashion-forward colourways now heading for the home.

Colours are depicted as accurately as the printing process allows. Always trial your favourites using Resene testpots before making your final choice.
