ISN'T SHE LOVELY?

Brighten up with a feminine palette of pink paints that work as well on your walls as they do in your wardrobe. Introducing gentle, muted colours like Resene Sakura and Resene Pot Pourri will have the bonus of enlivening any existing whites in your home, or go for a bolder overhaul using striking shades such as Resene Paper Doll or Resene New York Pink.

YOU are my SUNSHINE

Capture the lifted mood that longer days allow with playful and powdery hues that appease the desire for a fresh start. Surrounding yourself with sunrise yellows and sunset pinks might just be the ultimate happiness hack.

HAPPY PLACES

Let there be lightness in your interior in the form of yellows that are at once uplifting and soothing. Moon-glow yellow Resene Moonbeam and vaporous cream Resene Scotch Mist invite new-season interest while providing a healthy dose of slow-release energy that teams well with year-round neutrals.
