Get coloured with KidzColour

Strongwilled, excitable and opinionated - today's kids know just what they want so to simplify choice for kids and their parents alike, Resene presents KidzColour - a range of 72 hues and metallics designed for kids of all ages.

Colour options have been tested with various aged kids giving a range focused on bright bold, full chroma hues and metallics - perfect as a statement by themselves or combined with another equally bold hue for an invigorating scheme.

For those with a newborn in the house, KidzColour also includes a smaller palette of eighteen soft pastels that may be mixed and matched with each other or used as a base for one of the brighter accent colours.

Be the envy of all your friends and get coloured with KidzColour! Best of all, because it's just a coat of paint, you can add more colours or repaint when favourite colours change.

The KidzColour range also includes favourite effects finishes such as **Resene Magnetic Magic**, **Resene Blackboard Paint**, **Resene Pearl Shimmer** and **Resene Pixie Dust**. Plus you can download stencil images from www.resene.co.nz/stencils.htm (NZ) or www.resene.com.au/stencils.htm (AUST) and create stencilled masterpieces for just the cost of a different colour of paint.

Simply Magic

Resene Magnetic Magic is a magnetic base coating that will turn walls into magnetic boards suitable for use with a wide range of magnets. With double the 'attraction' of existing magnetic coatings, this product is loaded with iron oxides for maximum magnetic effect.

Chalk Artist

Resene Blackboard Paint is a premium scrubbable 100% acrylic coating for all types of interior and exterior smooth surfaces where a hardwearing blackboard coating is required. It is easy to apply - in fact the hardest part is keeping would-be chalk artists away long enough to give the paint time to dry before they start covering it up with chalk!

Pixie Power

Resene Pixie Dust is an acrylic glitter glaze, a new rainbow twist on existing special effects, making it ideal for feature areas where you want something a little special, a little intriguing and definitely a little out of the ordinary.

Perfect when a little space dust or fairy dust is needed. Simply select your basecoat colour, apply as per normal and then apply Resene Pixie Dust as required to create the rainbow shimmer effect. The basecoat colour will show through the Resene Pixie Dust topcoat giving you a very cool shimmer effect over your favourite colour. The most glittering results will be seen over dark and complex hues as these provide the greatest contrast to the shimmering pigments.

Shimmer Space

Similar to Resene Pixie Dust, Resene Pearl Shimmer is an acrylic pearlescent glaze ideal for creating sparkled features. Either apply direct to existing painted areas for a shimmer finish or get your local Resene ColorShop or Reseller staff to add a touch of tinter and create unique two tone effects of solid colour with a shimmery colour topcoat.

Get Crackled

Create cool crackled finishes - pick your favourite colours and paint one onto the surface. Allow to dry, paint a coat of Resene Crackle Effect then leave to dry. Apply your second favourite colour and stand back and watch while the Resene Crackle Effect shrinks and cracks to reveal the first colour. Seriously cool!

Tips & Tricks

- Think ahead... kids grow fast and tastes change rapidly. So make sure your plan incorporates options for the future. If you don't mind completely revamping the room in a few years, you can opt for a fully themed room... but be prepared to change it later!
- Latest trends and fads can be incorporated using cushions, posters, wallpaper borders and toys that can be easily changed as the trends and fads do.
- Check out what others have done in the past in the online Resene Inspiration Gallery at www.resene.co.nz/homeown/decorating_inspirations/painting_kids_bedrooms.htm and use their ideas as inspiration for your own.
- Kids tend to spend a lot of time playing on the floor, so opt for soft flooring where possible or ensure rugs have non-slip underlay. Avoid anything too light in colour as the occasional accident is bound to occur!

Walls and doors will also be in for a workout so opt for a washable finish such as Resene Zylone SpaceCote low sheen waterborne enamel to make cleaning up marks easy.

Check out Resene EzyPaint virtual painting software and try out your favourite colour scheme options without lifting a paintbrush. Available free online from www.resene.co.nz (NZ) or www.resene.com.au (AUST) or borrow or buy a copy from any Resene ColorShop or Reseller. Resene EzyPaint is suitable for kids to use, provided you don't need the computer back for a while!

Always try out the colour scheme you plan to use with Resene testpots just to make sure it's what you want before you start painting all the walls.

And parents, remember that kids have firm favourites when it comes to colours - don't be afraid to let them go with their favourites - you may just be surprised how much you like the finish!

Don't forget, there are lots of great effects you can create using effects finishes, stamps, sponges and general arts and crafts activities to add wall art, pencil holders and more to the finished room, so let your imagination run wild. Check out our tips on some of the finishes you may like to try out for yourself to get you started.

Ideas to get you started:

Super stencils

Add your favourite pictures, designs or shapes to the walls and create themed walls in next to no time. Here's how...

1. Find or make the stencil you want to use. Stencil pictures can be downloaded from www.resene.co.nz/stencils.htm (NZ) or www.resene.com.au/stencils.htm (AUST), traced onto light cardboard and cut out to get you started. Tape the stencil to the wall using low tack masking tape.

2. Once you've got your stencil, dip your brush into your chosen paint colour. Dab the brush on a paper towel to get rid of any extra paint then place your brush at the edge of the stencil opening and apply the paint by dabbing the surface lightly or moving the brush in a circular motion.

3. Repeat step two until you get the colour intensity you desire

You can also stencil using a roller. Instead of step 2 and 3 above...

Create clouds

Clouds can be a very relaxing finish to any room, making it seem airy and giving something to look at when stuck in bed during the day. To create a cloudy sky, apply a base colour of blue to the full ceiling area and allow to dry. Then use a sponge to lightly apply the white clouds. Dip the sponge in the white paint, then dab onto paper to remove excess paint before applying the sponge to the ceiling. Just add a few clouds at the start and allow to dry - you can always add more clouds later, but it will be much harder to take them away!

See stripes

Stripes can be a neat effect for a room, allowing you to use two (or even more) favourite colours all over the room.

Paint one colour over the complete area where you wish to create stripes and allow to dry. To create stripes, place low tack masking tape along the edge where you want the stripe to go. Make sure the tape is well pushed down on the edges otherwise the paint will creep underneath it. The best idea is to buy tape that is the same width as the stripes you want to create, as this will make your job easier. Apply as many pieces of tape as you want to create stripes.

Paint the second colour over the exposed area and onto the taped area. Carefully remove the tape before the paint dries.

If you wish to paint wider stripes and can't find wide enough tape, simply place tape down either side of the area where you wish to create stripes and then paint between the two pieces of tape and just slightly onto the taped area. Be careful not to paint beyond the tape. Carefully remove the tape before the paint dries.

Resene
Total Colour
System

Keep busy

Keep little hands busy with Resene arts and crafts activities. Try out the Resene Art Action art & poster, student acrylic and tempera paint range, ideal for kids of all ages. Available in a range of colours.

Visit the Resene website at www.resene.co.nz (NZ) or www.resene.com.au (AUST) and try out Resene EzyPaint virtual painting or download your favourite testspots character free from www.resene.co.nz/kids/colouring_in.htm ready for colouring in or painting. Get testspots of your favourite colours and use them to paint your favourite testspots characters - if you make a mistake you can always print out a new page and start again!

Have fun creating your own colour on any computer - simply visit www.resene.co.nz/competition/competition.htm and adjust the red, green and blue values and you can create your very own colour. Print it out on a colour printer and take it into any Resene ColorShop or Reseller for colour matching.

Keep safe

Learn about the hazards involved in redecorating, including the risks of lead-based paint and solvent odours and how you can minimise these risks when undertaking your next project - see the Resene low odour eco-friendly way to paint a child's bedroom brochure or check out the information online at www.resene.co.nz (NZ) or www.resene.com.au (AUST).

Explore a colour library

View an extensive range of Resene colour swatches in the online Resene colour library, then download the ones you like. Once you have found your favourites, order testspots online and try them out for yourself in the real world. Or browse through the in-store libraries of colour that can be found at most Resene ColorShops. With over 1500 variously coloured A4 swatches to pore over including the KidzColour range, you're bound to find one that suits.

'See' the finish

Virtual painting with Resene EzyPaint allows you to visualise the entire colour scheme before the redecorating even starts. Resene EzyPaint can be downloaded free from the Resene website www.resene.co.nz (NZ), www.resene.com.au (AUST) or purchased on CD Rom from your local Resene ColorShop or Reseller.

Put your colour to the test

No matter how you select your colours, always use testspots to confirm your choices in the area you are planning to paint. Resene testspots are available from your local Resene ColorShop or Reseller or you can order online from the Resene website.

Caring for your paint finish

Follow the recommendations in the Resene Caring for your Paint Finish brochure or on the Resene website to keep your paintwork looking its best.

Choose to help the environment

You can minimise the effect your next decorating project has on the environment by choosing one of the Resene range of Environmental Choice approved products.

*** H/O Order only**

TONES KEY:
 BG = Blast Grey D = Deep L = Light
 M = Mid MG = Magenta O = Ochre
 P = Pastel R = Red SA = Silver Aluminium
 U = Ultra Deep W = White Y2 = Yellow 2

Note 1: The approximate reflectance value (RV) of a colour indicates the amount of light and heat that a colour will reflect. Black has a reflectance value of 0% and absorbs all light and heat. The surfaces are consequently very dark and can get very hot. In contrast, white has a reflectance value of 100% and keeps a building light and cool. All colours fit within these extremes.

Note 2: Tones listed above are subject to change if colours are reformulated.

Note 3: Solid colours in this brochure are printed and therefore are not an exact replication of paint colours. Please use Resene testspots to check your colour choices or refer to the in-store colour library samples.
